WORK EXPERIENCE

National Population Council (CONAPO)

Head of the Demographic Analysis Department.

Activities to develop:

Creation of computational tools to visualize and analyze Mexican conciliation data (1950-2015) and the Mexican projected population (2016-2050). Demographic data analysis of population, deaths, births, and migration. I programmed and uploaded (Linux servers) the first version (2018) of the shiny app to visualize these data ([link](#)). During this period, I also worked on the project presented at SOMEDE: "Estimation of the infant mortality rate in Mexico in 2015 at municipal level using numerical techniques".

2017-2018

Center of Demographic, Urban, and Environmental Studies (CEDUA) of COLMEX

Research support.

Activities to develop:

Development of the R package "DemosR: Package for the Stochastic Population Forecast"¹. Analysis and handling of big data for demographic research.

2014-2015
